CFA MULTI-FUNCTIONAL ROTARY DRILLING RIG

— YAHE MODEL

# CFA MULTI-FUNCTIONAL ROTARY DRILLING RIG

— CFA DRILLING RIG / CFA MULTI-FUNCTIONAL ROTARY DRILLING RIG

## CFA MULTI-FUNCTIONAL ROTARY DRILLING RIG

DRILLING DEPTH

5m

DRILLING DIAMETER

300-600mm

MACHINE WEIGHT

25-32ton

| MODEL                                                  | CFA PILING RIG  |
| Machine weight                                         | 22-40T          |
| Maximum drilling depth                                 | 5-30M           |
| Drilling diameter                                      | 150-1000MM      |
| Engine brand                                           | WEICHAI/CUMMINS |
| Engine rated power                                     | 151-191KW       |
| Maximum working pressure of hydraulic system main pump | 30MPA           |
| Track shoe width                                       | 600MM           |

01

### MULTI FUNCTIONAL

CFA drill rod and inter-locking kelly bar, one machine for dual use.

02

### HIGH EFFICIENCY HYDRAULIC

using imported Kawasaki hydraulic system

03

### HIGH EFFICIENCY

the whole machine is design-optimized, low pressure loss, fast speed and easy to operate; equipped with multi-gear rotary drive, automatic soil dumping

04

### SAFE AND COMFORTABLE

reasonable layout, comfortable operation; Heavy mechanical suspension seat has good vibration reduction effect, avoid fatigue; air conditioner with high power, fearless of severe

function, automatic soil shaking function,  
ensure high drilling efficiency.
